## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-22, 24-32 and 34 are allowed over the Prior Art of record.
2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claim 1 is the inclusion of the specific method step of employing a well model utilizing an initial temperature of an injection fluid (prior to injection) and the temperature profile in combination with the other recited method steps in a method of determining characteristics of an injection well and determining a flow profile. As to independent claims 13, 18 and 27, the inclusion of the specific limitation and/or method step limitation of employing measured data of the reservoir (formation fluid) ***thermal conductivity*** (emphasis added) in a system and/or method of determining characteristics, specifically a flow profile, of a horizontal/deviated (i.e. other than vertical) well/wellbore. None of the Prior Art teach the above limitations and/or method steps.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
